

# Industrialization Test Review

## Possible Essay Questions:

1. Explain how urbanization led to changes in the appearance of towns as they became industrialized cities.
2. What is the purpose of a labor union and why did many workers join a union during Industrialization? Discuss the effectiveness of these organizations.
3. As a result of the Industrial Revolution, how did the life of the working class change? Make sure that you thoroughly describe the working conditions of all the workers and remember not to leave out a discussion of women and children.
4. Summarize the changes in women's rights that took place during this time period.
5. Provide some examples of major inventions made during this time period and explain the impact of these inventions on industrial growth.
6. Who were the Progressives? How did they help create more rights for workers?
7. How are Carnegie, Rockefeller, and Morgan examples of the rise of big business during the Industrial Revolution? Compare these business leaders and the rise of their monopolies/trusts.
8. The U.S. experienced a new wave of immigration during this time period. What were some of the reasons why so many immigrants began to come to the U.S.? Where did they generally come from? What was the reaction of many Americans to these immigrants?
